

DIGITAL EYE LAB Network

TOTAL SOLUTION PORTFOLIO

A Complete Blue Light Control Strategy

bluDEFENSE

Lens Materials – harmful blue light absorbing and filtering technology built into the lens monomer

Coating – reflects harmful blue light and UV away from the eye

Shamir Blue Zero™

Lens Treatment - provides protection from potential harm from natural and artificial light sources

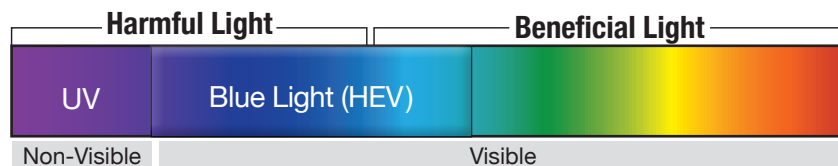

techshield^{Blue}

Advanced blue light defense in a premium anti-reflective coating

TechShield is a trademark of Plexus Optix, Inc.

BLUTECH^{Blue} LENSES

Incorporates Blue Light Plus™, a proprietary combination of pigments and dyes infused into the lens.
